

2020 JSRAE Annual Conference

Organizer: Japan Society of Refrigerating and Air Conditioning Engineers

September 9 - 11, 2020
Mie University (Tsu-city, Mie, JAPAN)

CHANGE TO WEB CONFERENCE

The 2020 Annual Meeting Organizing Committee has been preparing for the scheduled event, paying close attention to the spread of COVID-19. However, considering the current situation in Japan, it was thought that it would be difficult to hold the conference in September securing the safety of the participants. The organizing committee has decided to hold a Web conference (interactive live conference) using "Zoom" (<https://zoom.us/>) instead of the usual conference.

Details on how to make presentations and how to participate the conference will be posted on the website or informed by e-mails. The Web conference is the first attempt of the annual conference, and we are grateful that you understand it as an effort to secure the safety of participants and the opportunity of presentation.

Due to the change to the Web conference, the deadlines of abstract submission, final manuscript submission and early-bird registration are also changed. Please submit your abstracts through the following conference website. We look forward to the active participation of all of you to liven up the conference.

Abstract submission page: https://www.jsrae-nenji.org/nenji2020/en/abstract_submission.html

CHANGE OF MAIN SCHEDULE

Deadline of Abstract submission: May 31st

Notification of acceptance (Only for the rejected papers.): June 17th

Final manuscript submission starts: July 6th

Early-bird registration starts: July 6th

Deadline of final manuscript submission: July 24th

Deadline of pre-registration for participants from abroad: undecided

Deadline of payment for pre-registration: undecided

LANGUAGE

The International Session (IS) will be conducted in English. All organized sessions, workshop and seminars will be conducted in Japanese.
